PROFILE

I'm an experienced short-form Producer/Director. I work on projects from creative to delivery, and cover several roles in the process.

Over the last few years I've worked for *BBC*, *Great Big Story*, *CNN Commercial*, *LEGO*, *The Edge*, *MarlowFilm*, and *The Film Agency* to produce beautiful films that really engage the audience.

Having worked, hands on, at all stages of the production process, I am well used to dealing with agencies and production companies, as well as working for them. Through this experience I am also used to managing clients, industry service providers, and specialist freelancers, both at domestically and internationally.

In all the work I do I deliver what's desired, but push the boundaries wherever possible to ensure the tone and message established in the creative, or client vision is amplified.
